

REMARKS

In response to the Advisory Action mailed April 16, 2007, Applicant respectfully requests reconsideration. Claims 35-46 and 55 were previously pending in this application. Claims 35 and 44 have been amended.

The Examiner has stated in comment 13 of the Advisory Action that Claims 35-46 and 55 would be allowed upon moving the limitation of “positioning a radiation transparent base film...” in Claim 35 up to line 6 of Claim 35, deleting the word “blocking” from Claim 42, and canceling apparatus Claims 47-54.

Applicant has amended Claim 35 as was suggested by the Examiner.

Applicant respectfully brings attention to the Amendment filed April 3, 2007, where the amendment to Claim 42 and cancellation of Claims 47-54 were believed to have already been made as was suggested by the Examiner.

Applicant has now also amended Claims 44, 45, and 55 as discussed during a telephone conference on April 26, 2007. These amendments are being made to correct inconsistencies in the claim language and do not introduce any new matter.

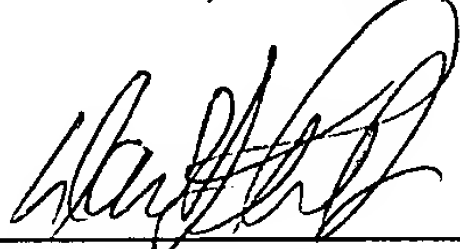

Applicant also notes that during a telephone conference on April 26, 2007, the Examiner had indicated that an Examiner’s Amendment would be entered as described above. The Examiner had indicated that upon entering the Examiner’s Amendment, the application would be in condition for allowance. Applicants respectfully note that no such Examiner’s amendment has been entered thus far, and is therefore submitting the instant amendment in an effort to move prosecution forward.

CONCLUSION

In view of the above amendments and remarks, it is believed that all claims are in condition for allowance, and it is respectfully requested that the application be passed to issue. If the Examiner feels that a telephone conference would expedite prosecution of this case, the Examiner is invited to call the undersigned.

Respectfully submitted,

HAMILTON, BROOK, SMITH & REYNOLDS, P.C.
